

## Listen for Good: Overview for Funders

---

### Overview

Listen for Good (L4G) is an initiative dedicated to building the practice of listening to the people we seek to help.<sup>1</sup> We invite nonprofits and funders to join us in exploring a simple but systematic and rigorous way of getting feedback from the people at the heart of our work. Listen for Good is focused on applying a semi-standard survey instrument, which includes the Net Promoter System<sup>SM</sup> (NPS<sup>®</sup>) question used widely in customer feedback circles, to the nonprofit beneficiary context. Since 2016, we have made 158 L4G grants supported by 69 nominating co-funders.

Listen for Good grantees receive \$30,000 during an 18-month grant period (\$20,000 in the first year and \$10,000 in the final six months), as well as access to technical assistance to guide implementation efforts. (Half the grant money is covered by Fund for Shared Insight, the other half by a nominating co-funder.) The core feedback tool is a simple survey, consisting of five standard questions that all participating L4G organizations are required to ask:

- ▶ 1. How likely is it that you would recommend [...] to a friend or family member?
- ▶ 2. What is [...] good at?
- ▶ 3. What could [...] do better?
- ▶ 4. How much of a positive difference has [...] made in your life?
- ▶ 5. How often do staff at [...] treat you with respect?

In addition, organizations can ask four optional demographic questions and add up to five custom questions to their survey.

---

<sup>1</sup> People use a variety of terms to describe the people we seek to help, including “beneficiaries,” “clients,” “ultimate constituents” and “ultimate intended constituents.” For the purpose of mutual understanding in this proposal, we will primarily use the phrase “the people we seek to help” – recognizing that we don’t always reach the people we want to help.

The quantitative and qualitative responses to the L4G survey are gathered using a variety of data collection methods — including kiosks, tablets, paper surveys, and in-person interviews — and in multiple languages, when appropriate. Our survey-platform provider, SurveyMonkey, provides benchmarks to compare organizations' responses to those of organizations in similar issue areas. Through our high-quality technical assistance, we help organizations step-by-step with collecting, interpreting, and responding to feedback.

We look forward to sharing what we learn as we continue to scale this effort, reaching more co-funders and customer-facing nonprofits across the country and supporting them as they listen for good.

## Purpose of Listen for Good

With the Listen for Good initiative, Fund for Shared Insight aims to:

- ▶ **Support** diverse, customer-facing nonprofits to initiate or improve their practice of systematically collecting and using feedback from the people they seek to help. By “diverse”, we mean nonprofits of many budget sizes, focus areas, populations served, and geographies. By “the people we seek to help”, we mean individuals whose voices are least heard. These might be families visiting food pantries, youth attending afterschool academic and enrichment programs, residents living in public housing, recent immigrants using legal aid services, or individuals participating in job-training programs.
- ▶ **Accelerate** the building of infrastructure needed for strong beneficiary feedback loops in the social sector, including technology, analytics, reporting, and access to tools and benchmarks.
- ▶ **Experiment and learn** about applying/adapting NPS to the beneficiary feedback context – including determining what survey questions work best for organizations and building out benchmarks in key issue areas (e.g. food insecurity, community and economic development, health).
- ▶ **Engage** more funders in supporting, using, and valuing beneficiary feedback by structuring Listen for Good as a co-funding/matching grant opportunity.
- ▶ **Capture and share** lessons learned with grantees, co-funders and the field to positively catalyze the feedback movement and inform the work going forward.

## How to Participate (Nonprofits)

**In order to participate in Listen for Good, a nonprofit must be nominated by a current funder (existing or new). If the nonprofit(s) a funder nominates is selected to participate in L4G, the nominating funder will contribute \$15,000 of the \$30,000 grant total for each nonprofit selected.\*** Grantees will receive \$20,000 in the first year and \$10,000 in the final six months of the 18-month grant period.

Check our website and other materials for grant opportunities, application due dates, and other up-to-date information. Nonprofits can also learn more by signing up for our webinars (participation is optional and will not influence funding decisions) and accessing informational materials, including Frequently Asked Questions, [here](#).

\*Grantees that are nominated by [Shared Insight Core Funders](#) are fully funded by the core funder.

## How to Participate (Funders)

In order to engage more funders in supporting beneficiary feedback efforts and using the data to inform their work, L4G is structured as a co-funding engagement. Funders can nominate existing grantee(s) and commit to contributing \$15,000 of the \$30,000 grant total for each nonprofit selected. Funders may nominate as many grantees as they wish, but we encourage funders to prioritize organizations that want to collect feedback from the people they seek to help whose voices are least heard. The grantees should also *want* to participate and have the capacity to do so.

To nominate a grantee(s) or learn more, please email Lindsay Louie, Project Director, Listen for Good, at [llouie@hewlett.org](mailto:llouie@hewlett.org). For more information about Listen for Good, including how to nominate a grantee and Frequently Asked Questions (FAQ) for funders, see the [Listen for Good: Information for Funders](#) page. We will post updates to the FAQs, so please check back regularly.

## About Fund for Shared Insight

Fund for Shared Insight is a funder collaborative that pools financial and other resources to make grants to improve philanthropy. Shared Insight supports foundations and nonprofits seeking to embrace and adopt feedback loops and share honest insights so their collective efforts have a greater impact on people's lives. We believe this will make foundations and nonprofits more effective and accelerate efforts to solve our society's greatest challenges. Shared Insight is led by 13 core funders: Rita Allen Foundation, Barr Foundation, Edna McConnell Clark Foundation, Einhorn Charitable Trust, Ford Foundation, Bill & Melinda Gates Foundation, William and Flora Hewlett Foundation, The James Irvine Foundation, The JPB Foundation, W.K. Kellogg Foundation, Gordon and Betty Moore Foundation, David and Lucile Packard Foundation, and The Rockefeller Foundation.
